Career Objective

A dedicated and quick-learning fresher with a strong interest in building real-world applications and solving problems using technology. Seeking an opportunity to work on meaningful projects while expanding my knowledge in programming and web technologies.

Education

Bachelor of Technology (B.Tech) – Computer Science and Engineering (AIML) ,   2022 – 2026
Godavari Institute of Engineering and Technology-GIET

- CGPA: 8.1/10

Skills

- Programming Languages:Java
- Web Technologies: HTML, CSS
- Database: SQL

Internship

Java Full Stack Trainee, Techwing-GIET   Sept 2024 – June 2025

- Underwent hands-on training in full stack development using Java, Spring Boot, HTML, CSS, and SQL
- Learned to build web applications with backend–frontend integration
- Practical experience through internal projects and guided mentoring sessions

Projects

Flight Booking System   github.com

- Developed a full-stack web application to search, book, and manage flight tickets with dynamic pricing. Integrated Angular frontend with REST APIs and MySQL backend for real-time booking and data storage.
- Tools Used:Angular, REST API, MySQL

Personal Portfolio Website   github.com

- Designed and deployed a responsive personal portfolio showcasing skills, projects, and certifications. Implemented interactive UI elements, smooth navigation, and optimized performance for all devices.
- Tools Used:HTML, CSS, JavaScript

Hostel Management System   github.com

- Created a web-based hostel management system for room booking, fee payment, and visitor logging. Built using JSP and Servlets with MySQL integration for secure data handling and CRUD operations.
- Tools Used:JDBC, JSP, Servlet, MySQL

Certifications

- Programming in Java – NPTEL
- HTML and CSS – Infosys Springboard
